Women in Public Finance

Tuesday, 30th November 2021 | Online Event

in partnership with [Public Finance by Women](#) [1]

Despite significant progress in recent years, gender leadership gaps in the traditionally male-dominated field of finance persist. Visible and invisible barriers continue to hold women back. Furthermore, there is a marked lack of data and support addressing the specific circumstances of women working in public finance.

The unique '**Women in Public Finance**' conference seeks to address this gap. Bringing together current and future leaders from across public finance, this conference examines the role of women in the sector and current challenges to leadership. Over the course of the day, senior leaders will offer guidance, coaching and inspiration on **further developing your career, reaching empowerment and fulfilling your potential**.

Due to current uncertainty surrounding live events and restrictions around social distancing, Women in Public Finance 2021 will take place online.

The Women in Public Finance online event platform will enable you to explore on-demand

materials which will supplement your learning experience and help you focus on the topics most relevant to you.
